This house is perfect for people who like turning things back to its former beauty. Gravenhunger might give you a nice feeling of something being alive, like a guardian angel protecting you.

### The Grounds

As you walk or drive towards this mansion, you will be greeted by a pair of golden, glistening gates which give a melodic hum when opened. Surrounding the house, there are wonderful, wild gardens that children will love! Visitors will have fun walking on the twisting paths leading to your home. When you go past the gates, there will be a driveway that fits tons of cars.

### The Attic

Above every room and floor, you can uncover a secret room and it overlooks the entire place. Currently, this room is used as a store room so you should find some ancient treasures! You can turn this into anything you want! Maybe an eighth bedroom, or a gaming room, anything you want!

## The Inside of the Manor

Inside the mansion, you will find a dining room/kitchen that is perfect for throwing parties. There is a wooden hand-carved staircase that makes you feel like royalty, when you climb up and down it. As you enter this unique mansion, there is a colossal, echoing entrance hall, great for music, awaiting your arrival. In the centre of the hall stands the staircase, previously mentioned. If you struggle walking upstairs, there is plenty of space to add a lift if desired. If you look closely, you will find a secret staircase leading to a cellar. Like many other rooms, you can also renovate this room.

With the beautiful Gravenhunger Village on your doorstep, there is incredible walking or driving into the village to have a shopping spree. The village, which you can have fun in, has many restaurants. Do you really want to leave this and not buy it? If you do, be quick.
