

All Creatures Great and Small

Year 5 Home Learning Menu Week 5 - W.B. 27/04/20

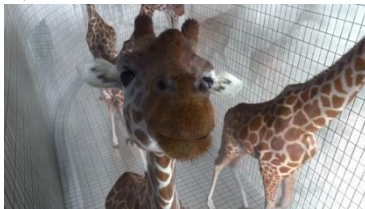

Here are some activities focused around our Summer Term Science Topic of Animals. Hope you enjoy them!

Don't forget to check **MyMaths** for your weekly maths tasks and **Seesaw** for extra learning tasks!

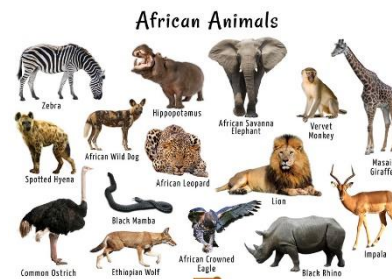

Watch the video linked below...

Use the writing task sheet on the VLE to complete the writing task... it's one you won't want to miss!

Complete the **Animals of Africa Maths Worksheet** on the VLE. These activities focus on data (bar charts) and measurement.

How does the Animal Kingdom keep going? Fill in the **science worksheet** on the VLE.

Create a help sheet for KS1 children to learn the names for animals in **French**. There is a sheet on the VLE that you can use to help you to create ideas from or you can use the sheet and add to it.

Do we change to fit our habitat?
Design your own animal, drawing it clearly.
Annotate and consider:

Where does it live? If it lives in the water, what does it need to be able to do? How is it going to do that? If it lives somewhere hot, what type of skin will it need to have?

Using the Giraffe Video (from the first activity), answer the comprehension questions, found on the VLE!
