

Design a Racetrack for a Toy Car

Can you create your very own racetrack for a toy car?

You will need to:

1. Gather some materials to create your track. This could be things from your house or garden or could be chalk to draw the racetrack on the ground outside.
2. Get yourself a couple of toy cars and somebody to race against!

Things to think about:

- Do you want to make a start and finish line?
- Do you want to include some bends and maybe a pit stop in your track?
- Do you want to build a tunnel or a bridge?
- Do you want to add other details like trees or buildings around your track?
- Do you want to draw road markings or create road signs for your racetrack?

Remember, your track can be as simple or as complicated as you want to make it – see where your imagination takes you!
