

We are launching a competition...

To see who is the most Eco Friendly Class in the
School and who can be named

Tower Hill's Eco Warriors!

Each day, the School Council will be checking to see:

- Which class is turning their lights off when there is nobody in the room.
- Which class is producing the LEAST amount of waste in their bins.
- Which class is switching their interactive whiteboards off when they aren't being used.

For each thing you are doing from the list above, you will get a point recorded on the School Council Display Board.

The class who gets the most points each half term, will win a certificate and a trophy to keep for the next half term.
