

REWRITE THE STARS

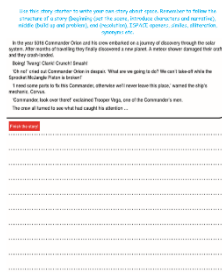

Year 5 Homework Menu - Extended Home Learning 13.04.20-19.04.20

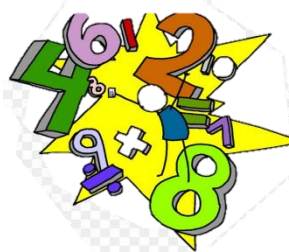

Here are some fun projects and tasks, related to our learning, that you can have a go at during your time at home.

Don't forget to check MyMaths for your weekly maths tasks and Seesaw for extra learning tasks!

Find the 'Story Starter' Resource on our Home Learning VLE page. Use the template to write a story about space.

Complete the maths questions sheet about Planets in our Solar System. The resource sheet is on the VLE Home Learning Page.

Find a book about space on your E-Book Website, write a review about it for you friends to read. **Would you recommend it? What is the main plot of the story? Who tells the story?**

Look at the **moon every night for the next week** to see how it changes each night. Video yourself or write about what you noticed each night. You can take pictures, videos or make notes about the moon to include.

Challenge questions: Why do you think it changes? What about it changes? Does it change if you look at different times each night?

You are an engineer and you have been tasked with designing (and/or building) a space rocket to take 4 astronauts to Mars. You need to annotate (label) and explain what you have chosen the materials you have and why you have designed it the way you have.

Take an object from your house that will fit on a piece of paper outside and place your paper on the floor with the object at the bottom of the page- draw around the shadow. **Do this at three different times of the day,** keeping the paper and object in the same place, **is it the same each time?**
